

2016 Convention Report 2/21/2016

There is no recent success story to emulate for a SSA Convention put on by a local club. With a blank sheet of paper in front of me, looking at what needs to be done, combined with the skills, interests, likes and dislikes of the various early volunteers, I have been trying to devise an organizational structure and the resulting job descriptions for the event. What do we do locally? What does the SSA staff continue to do? How do you manage a group of volunteers spread out all over the country? Wrapping my mind around this has been fun, and challenging because it is extremely different from my normal work environment. The attached is a work in progress, and I would appreciate feedback and discussion during the board meeting. I'm sure there are volunteers, positions, and ideas that need to be added.
