

SSA SC30 Retrieve Office Form - Printing Options

This form is normally printed with the Retrieve Office Form on one side and the Outlanding Information on the other then cut in half with a finished size of 5.5 x 8.5 inches approximately.

The following page provides these forms "two up" meaning identical forms ready for the copy machine.

Make half of the copies you think you will need (1.5 then number of contestants but dependent on the number of landouts) on rather heavy paper then copy or print on the back and cut the forms in half.

You may have to carefully position the original on the copier to get even results depending on the printer and copier used.

Try a few before printing a large run.

Retrieve Office Form		SSA SC30 09	Outlanding Information		SSA SC30 09
