<input type="checkbox"/>	< Flight recorder failure?	
<input type="checkbox"/>	< Safety Finish Claimed?	
SIGNATURE		I certify that information on this form is complete and correct.

### Printing Instructions

Task Claim forms are submitted by all pilots in case of a Modified Assigned Task; otherwise, they are rarely needed. They can be held by the Scorer, who supplies them to pilots as needed. An efficient initial print quantity is 1.2 times the number of entrants.

The following page provides these forms “two up” meaning identical forms ready for the copy machine.

Make half of the copies you think you will need on rather heavy paper and cut the forms in half.

You may have to carefully position the original on the copier to get even results depending on the printer and copier used.

Try a few before printing a large run.
